

## Recycled plastic umbrella bags h358\_08

Drip-saving wraps for umbrellas. Material: 100% recycled plastic. Pack of 1000 pieces.

The **h358\_08 umbrella bags** are professional drip-saving bags designed for those who want to combine indoor safety with a radical ecological choice. Made entirely of **100% recycled plastic**, these wraps solve the operational problem of wet floors in offices and shops during rainy days, eliminating the risk of slipping and damage to goods. Each bag is provided with a **top hole** for universal hanging on stands and a pre-cut system for immediate extraction. They represent the ideal solution for corporate and commercial targets attentive to sustainability and the decorum of common spaces.
