

Recycling bin 60L h86_272

Indoor recycling bin 60L in manganese gray steel with signal red lid RAL 3020. Dimensions: approx. W 30 x D 30 x H 89.7 cm.

The **h86_272 recycling container** is a practical and elegant solution for waste management in indoor spaces. Designed with an **anti-UV powder-coated steel** body, it guarantees **resistance and durability**, even in high-traffic environments.

The steel **signage lid**, in **signal red RAL 3020** color, is equipped with **calibrated openings**, designed to facilitate the disposal of specific waste. Thanks to the emptying system by removing the lid, maintenance is quick and easy. The **included bracket kit** ensures the correct positioning of the bags (bags not included), while the **base with rubber gasket** protects floors from any scratches or slipping.

Suitable for offices, schools, canteens, and public areas, this container combines functionality and design, contributing to an optimal organization of waste recycling.

Make recycling simple and effective with the **h86_272 indoor recycling container**, a quality choice for organized and tidy indoor environments.

Technical features:
