Recycling station for sorting 7 types of waste h719_24

Indoor waste recycling bin with sorting of 7 types of waste. Dimensions: h 1460 x w 1365 x D 340 mm.

Waste recycling bin with sorting of 7 types of waste, suitable for **indoor environments**. The recycling station includes **4 internal galvanized containers** with a capacity of **4 x 45 l** including **swing lids** of different colors for waste identification; **1 galvanized steel compartment** with a capacity of **14 l**; **1 brown plastic container** of **10 l** for **organic waste**; **1 plastic container** of **3 l** for storing **old batteries**. There are **2 front hinged doors** through which it is possible to remove the 4 internal containers of 45 l each for cleaning the waste bags and **1 hinged door with a hole** for direct insertion of the material into the 3 l plastic tray. The organic waste container, instead, can be emptied by lifting it from its upper part. The material used for the structure is **quality galvanized steel** with a **powder-coated surface**, which makes the container **resistant** and **durable over time**.

Technical features:

- Structure dimensions: h 1460 x w 1365 x D 3340 mm
- Structure material: quality galvanized steel with powder-coated surface
- 4 internal galvanized containers with capacity 4 x 45 l
- 1 internal compartment for used glass with 14 l capacity
- 1 brown plastic container of 10 l for organic waste
- 1 plastic container of 3 l
- Hinged doors on the front, one of which has a hole for inserting waste to be disposed of in the 3 l container
- Colored swing lids for waste type identification
- Lid colors: anthracite grey RAL 7016; red RAL 3000; yellow RAL 1003; gentian blue RAL 5010
- Structure color: light grey RAL 7035
- Resistant and durable
- TÜV certified product
- Warranty: 5 years

*Upon request for a quote, it is possible to add colored stickers to identify waste.

*Images are purely indicative
