

Refrigerated buffet display h110_176

Refrigerated buffet display. Ideal for 1 eutectic plate.

The **refrigerated buffet display h110_176** is an elegant and functional stand, designed for the presentation of fresh food in professional contexts such as restaurants, catering and hotels. The structure is made of **black epoxy powder-coated steel**, offering a modern design that highlights the cleanliness of the included white **porcelain plate**. The passive refrigeration system uses a circular eutectic plate housed under the plate, ensuring temperature maintenance without the need for electric cables. The module is completed by sturdy **stainless steel feet** that lift the structure, improving the ergonomics and aesthetics of the buffet.
