

Refrigerated buffet display h110_180

Multilevel refrigerated display h110_180 for buffets, with painted steel structure and porcelain finishes. Dimensions: W 55.6 x D 45 x H 31.2 cm.

The **refrigerated buffet display h110_180** is an articulated and visually striking display solution, designed to optimize the presentation of fresh food in hotel halls, restaurants, and top-tier catering services. The structure is based on a **painted steel bracket** supporting a stainless steel plate, combining mechanical solidity and professional design. The passive cooling system uses a **GN 1/1 format eutectic plate**, which allows for maintaining the ideal temperature for several hours without the need for electrical connections. The set is enriched by a complete white porcelain equipment, including a large serving dish and four ramekins for single portions or sauces, making the service versatile and orderly.
