

Refrigerated buffet display h110_181

Three-level refrigerated display h110_181, ideal for hotel buffets and catering. Black epoxy steel structure with 3 porcelain bowls and 3 eutectic plates included. Dimensions: W 65 x D 23 x H 34 cm.

The **h110_181 refrigerated buffet display** is an elegant and space-saving vertical solution, designed for the presentation of fresh food in hotels, restaurants, and catering services. Made of sturdy **steel with black epoxy coating**, this model is developed on three staggered levels, allowing for optimal visibility of the displayed products. Each station is equipped with a high-quality **porcelain bowl** and a **eutectic plate** underneath, which ensures the maintenance of the ideal temperature without the use of electricity. The structure is completed by stainless steel feet that ensure stability and resistance to the humidity typical of refrigerated buffets.
