

Refrigerated buffet display shelf h110_157

Refrigerated shelf for breakfast buffet. GN 1/3 steel eutectic plate. Dimensions: W 35.8 x D 20.6 x H 7.4 cm.

The **h110_157 refrigerated shelf** represents the most compact and discreet solution for cold management in hotel, b&b, and holiday home buffets. Made of **black epoxy powder-coated steel**, this “slim” design support is perfect for displaying small selections of fresh food while optimizing counter space. The system uses a **Gastronorm GN 1/3 format steel eutectic plate**, which accumulates cold and releases it gradually by induction. Thanks to the rubber feet and the total absence of electrical components, it can be easily integrated into any setup, ensuring elegance and technical functionality.

Technical features

- **Structure material:** steel with black epoxy coating.
- **Cooling system:** 1 Gastronorm GN 1/3 format steel eutectic plate.
- **Thermal autonomy:** maintains temperature for up to 6 hours.
- **Total dimensions:** W. 35.8 x D. 20.6 x h. 7.4 cm.
- **Stability:** non-slip rubber feet.
- **Net weight:** 2.35 kg.
