

Refrigerated buffet showcase h464_147

Refrigerated buffet display case with two stainless steel trays. Dimensions: H.440 x D.320 x W.440 mm.

The **refrigerated buffet showcase h464_147** is a professional vertical display case, designed to double the display capacity by optimizing counter space. The structure is entirely made of **stainless steel**, ensuring maximum hygiene and long-lasting durability. This model is divided into two levels, each equipped with its own tray and **two independent cooling elements per level**, ensuring constant and uniform freshness on both the lower and upper tiers. Food protection is provided by a practical transparent **plastic rolltop lid**, which allows quick access and excellent visibility of the products.

Technical features

- **Supporting structure:** high quality stainless steel.
