

Refrigerated display case for restaurant buffet h887_11

Refrigerated display case for breakfast buffet. Dimensions: W. 46.5 x D. 31.5 x H. 19.5 cm.

The **h887_11 buffet display case** is an extremely versatile display unit, designed to meet the multiple needs of hotel breakfast rooms, snack bars, and restaurants. Unlike common cold-only models, this display case features a hybrid system with **2 gel packs** positioned under the stainless steel insert, capable of acting both for **cooling** and **heating** food. The structure is made of resistant polypropylene, completed by a practical **transparent polystyrene roll-top lid** that protects the dishes while ensuring maximum visibility. The product includes an integrated display for temperature monitoring and dishwasher-safe components.
