

Refrigerated display case h684_01

Refrigerated display case for buffets. Dimensions: W 69.3 x D 57 x H 35.7 cm. Wooden base available in various finishes.

The **h684_01 refrigerated display case** is a high-end module designed to enhance the display of fresh food in hotel buffets, restaurants, and cafeterias. Characterized by a solid **solid wood base** available in different finishes, it integrates elegantly into both classic and modern environments. The internal structure includes an **aluminum shelf**, a material ideal for thermal conduction, and a **transparent protective dome with double opening**, which facilitates access to food from both sides. The passive refrigeration system relies on **two included eutectic plates**, capable of maintaining the ideal temperature for a period of up to 5 hours without the need for an electrical connection.

Technical features

- **Structure:** High-quality solid wood base.
- **Display surface:** High thermal efficiency aluminum.
- **Cover:** Protective dome with double-sided opening system.
- **Refrigeration:** 2 eutectic plates included in the equipment.
- **Thermal autonomy:** Maintenance of cold for up to 5 hours.
- **Total dimensions:** W. 69.3 x D. 57 x H. 35.7 cm.
- **Finishes:** Base available in various wood colors.
