

Refrigerated display for breakfast room h464_146

Stainless steel refrigerated buffet display. Dimensions: H.205 x D.320 x L.440 mm.

The **refrigerated display for breakfast room h464_146** represents a professional and functional solution for buffet management in HoReCa contexts. Designed for hotels and restaurants, this tool solves the problem of thermal maintenance of perishable foods during service, ensuring prolonged freshness thanks to the **two cooling elements** integrated into the base. The compact structure and refined stainless steel aesthetics make it ideal for displaying dairy products, cold cuts, and desserts, offering the professional target a hygienic and easy-to-manage support in high-traffic environments.
