

Refrigerated top for breakfast buffet h110_156

Refrigerated top for breakfast buffet. GN 1/2 steel eutectic plate. Dimensions: W 35.8 x D 29.8 x H 7.4 cm.

The **h110_156 refrigerated top** is a compact and functional display unit, designed specifically for the space requirements of breakfast rooms in hotels, restaurants and b&bs. The structure is made of **steel coated with black epoxy powders**, guaranteeing a sober and professional finish that adapts to any environment. The heart of the system is the **eutectic plate in Gastronorm GN 1/2 steel format**, which allows food to be kept at the ideal serving temperature for a prolonged period. Thanks to the absence of cables and the presence of non-slip rubber feet, this top can be positioned with maximum flexibility on any counter or shelf.
