

Reinforced service trolley 4 shelves h09_267

AISI 304 stainless steel service trolley with 4 soundproofed 100x50 cm shelves, tubular structure and 150 kg load capacity for heavy-duty transport.

The service trolley **h09_267** is a professional logistics solution designed for intensive handling of heavy loads in contexts where hygiene and resistance are fundamental requirements. Entirely built in **AISI 304 stainless steel**, this model stands out for its robust 25 mm round tubular structure, capable of guaranteeing structural stability even under maximum stress.

The four shelves are tray-pressed with **rounded edges** to prevent injuries and facilitate cleaning; the satin finish and the special **soundproofing** treatment minimize vibrations and noise pollution during transit in sensitive environments. Mobility is provided by four high-glide multidirectional wheels, protected by angular rubber bumpers to preserve the integrity of walls and furniture.

Technical characteristics

- **Material:** AISI 304 stainless steel with satin finish
- **Structure:** Round tubular with 25 mm diameter
- **Configuration:** 4 tray-pressed shelves
- **Shelf properties:** Soundproofed and with rounded perimeter edges
- **Individual shelf dimensions:** 1000 x 500 mm
- **Overall dimensions:** 1100 x 600 x h.1300 mm
- **Rolling system:** 4 multidirectional wheels with 125 mm diameter
- **Protection:** 4 soft rubber bumpers at the corners
- **Load capacity:** Approximately 150 kg total
