

Removable anti-vandal bunk bed for prisons h679_50

Anti-vandal bunk bed in AISI 304 stainless steel (1900x900x1850 mm). Removable structure with security screws and satin finish for intensive use.

The **h679_50 anti-vandal bunk bed** represents the definitive solution for furnishing high-criticality and maximum security environments, such as penitentiary institutes and detention centers. Made entirely of **AISI 304 stainless steel** with a satin finish, this model solves problems related to tampering attempts and structural damage through the use of non-removable **anti-vandal screws** without specific tools. The bunk configuration allows for optimizing living space in collective contexts, while guaranteeing exceptional robustness and superior hygienic standards. The **completely removable** structure has been designed to facilitate transport and entry into cells or dormitories with narrow passages, ensuring monolithic stability once the security assembly is completed.

Technical features

- **Material:** AISI 304 Stainless Steel (UNI EN 10088-1)
- **Finish:** Satin (anti-reflective and scratch-resistant)
- **Total dimensions:** 1900 x 900 x 1850 mm
- **Type:** Two-story bunk bed
- **Security system:** Specific anti-vandal screws
- **Configuration:** Removable structure for facilitated logistics
- **Design:** Rounded corners and absence of sharp protrusions
- **Resistance:** Designed for intensive dynamic and static loads
- **Maintenance:** Aseptic surface resistant to corrosive detergents
