

Removable bollard for urban furniture h287_166

Removable road bollard in galvanized steel Ø60 mm, height 1080 mm. Ideal for flexible traffic management in market and historical areas.

The **road bollard for public spaces** represents an effective solution for the delimitation of pedestrian areas or limited traffic zones, preventing unauthorized access and parking of vehicles. The structure is made of high-quality **galvanized steel**, finished with a decorative sphere at the upper end that enhances its aesthetic appearance in urban decor contexts. The material undergoes a specific treatment that guarantees **high resistance to atmospheric agents** and mechanical wear, making it suitable for prolonged exposure in outdoor environments.

This model stands out for its **removable fixing system**, a fundamental technical feature that allows for the quick removal of the post. This functionality is designed to manage multifunctional spaces where traffic flow must be temporarily restored, such as in the case of local markets, fairs, public events, or to allow the passage of emergency vehicles.

Technical characteristics

- **Diameter:** Ø 60 mm
- **Useful height:** 1080 mm
- **Dimensions of the cylinder to be buried:** Ø 60 x H 250 mm
- **Door plant dimensions:** L 80 x W 65 x H 15/20 mm
- **Material:** Galvanized steel
- **Color:** Anthracite gray
- **Fixing system:** Removable with base to be buried

In addition to the removable version, the bollard is also available in the simple configuration with fixed mounting to be buried.
