

Removable bollard post h287_167

Galvanized steel bollard Ø80x1080 mm with decorative sphere and removable system, ideal for market areas and limited traffic zones.

The **removable traffic bollard** is a versatile solution for urban furniture management, designed to precisely delimit pedestrian areas, parking lots, and limited traffic zones. The **galvanized steel** structure guarantees high mechanical and chemical resistance against atmospheric agents, while the finish with non-toxic powders ensures a low environmental impact. The presence of the **decorative sphere** at the top gives the product a classic design, ideal for integration into historic centers and prestigious architectural contexts.
