

Rescue backpack h655_26

Lightweight and compact emergency backpack. Dimensions: W27 x D18 x H45 cm.

First aid backpack, ideal for transporting the equipment necessary for treating minor injuries. Suitable for use by firefighters, medical personnel operating in the sports field, and for other general rescue operations. Made of **robust material** and extremely **easy to carry** thanks to the **shoulder straps and top handle**. Its compact dimensions make it suitable for small lockers, rescue vehicles, and trunks. Equipped on the outside with **4 pockets** and **label holders**. The interior features a compartment dedicated to inserting **4 modular pouches** (included) with different colored edges and a transparent top, thus making the content clearly visible and ensuring order and speed in identifying the equipment needed. The pouches are **attached to the backpack via velcro** and can be positioned in different ways.

Technical features:

- Dimensions: W27 x D18 x H45 cm
- 4 external pockets
- Label holder
- 4 modular pouches (empty) included in the supply
