

Rescue backpack h655_36

Rescue backpack. 4 external pockets. 27x18x45 cm

Lightweight and compact rescue backpack made of **durable material**. With its dimensions of 45 x 27 x 18 (H/W/D), this backpack fits into almost all cabinets, trunks, or storage compartments of an emergency vehicle. Thanks to **four external pockets** and a 5 cm zipper extension, it can still hold extensive first aid equipment and remains flexible in the area of use. Inside, **four color-coded modular pouches** ensure order and clarity. The system, long established in the rescue service, consists of attaching the modular bags in the bottom compartment of the backpack using a Velcro system. The transparent lid pockets show the respective contents at a glance. The emergency backpack can hold everything needed for extended first aid at the scene of the accident.

Technical features:

- Dimensions: 27x18x45 cm
- 4 external pockets
- 4 internal modular pockets
- Adjustable shoulder straps
