

Rescue stretcher h711_05

Folding emergency stretcher. Open dimensions: L.230.2 x W.55.6 x h.13.7 cm.

Emergency stretcher specifically designed for use in ambulances and for rescue operations of injured people in places difficult to reach with a standard stretcher. **Practical, foldable and very durable.** Coated in **synthetic fiber fabric** easy to disinfect. It allows for safe transport of patients thanks to the transport poles and **quick-release safety belts**. Once folded, it can be conveniently transported thanks to the presence of **retractable carrying handles**.

Technical features:

- Open dimensions: L.230.2 x W.55.6 x h.13.7 cm
- Folded dimensions: L.192 x W.15 x h.14.5 cm
- Load capacity: 150 kg
- Aluminium profiles
- Lying surface with synthetic fiber fabric coating
- Retractable carrying handles
- Quick-release safety belts
- Compliant with DIN 13024 standard
