

Respiratory emergency backpack h690_19

Respiratory emergency backpack made of waterproof material. Dimensions: W. 30 x D. 56.5 x H. 23.5 cm.

The **respiratory emergency backpack** is ideal for transporting equipment dedicated to oxygen therapy and airway management, thanks to a large dedicated internal space. Its capacity also allows for **quick access to the necessary equipment** for different emergency situations. **Folding model** that allows the professional to store it in a practical way, even in confined spaces. It is **made of waterproof material**, therefore resistant in any situation, even in case of adverse weather conditions, and easy to clean. The bag is complete with long **zipper pulls** for easy opening, **night/day reflective strips**, an **internal flap** with **8 elastic bands**, an **oxygen tube extraction washer** and a **retractable rear trolley strap**.
