

Restaurant dining room service cabinet h2200117

High service cabinet for restaurant dining rooms in melamine-faced wood (94x48x145h cm). Equipped with a two-shelf riser, 2 cutlery drawers with dividers, open compartment and door. Protected edges and integrated wheels.

The **dining room service cabinet** is a complete and versatile workstation, designed to optimize the organization of restaurants and hotels. The structure, made of robust **melamine-faced wood**, is designed to offer rational management of all the material necessary for the mise en place: cutlery, menus, table linen and condiment sets. The cabinet develops vertically with a **riser equipped with two open shelves** for quick access to accessories, **2 cutlery drawers with internal dividers** and a base divided between a practical open compartment and a **door with an intermediate shelf**. Safety and durability are guaranteed by protected edges with rubber bumper profiles and the mobility offered by integrated wheels.
