

Restaurant plate transport trolley h31424

Plate trolley in AISI 304 18/10 stainless steel with sloped bottom, load capacity 300 kg (400 plates), 125 mm wheels.

The plate trolley is a solution designed to optimize the transport and distribution of tableware in professional environments. Ideal for **restaurants, hotels, canteens, and catering services**, it allows for the handling of large quantities of plates in a practical and functional way, reducing service times and operator fatigue.

The structure is made of **18/10 AISI 304 stainless steel** with **20×20 mm square tube**, ensuring structural strength and durability over time. The **reinforced sloped bottom** ensures the safe transport of plates, limiting the risk of slipping during movement.

Technical features

- Material: 18/10 AISI 304 stainless steel
- Structural profile: 20×20 mm square tube
- Reinforced sloped bottom
- Maximum capacity: 300 kg (approx. 400 plates)
- Swivel wheels: 4 × 125 mm (2 with brake)
- Bumpers: 4 units
- Dimensions: L 1120 × D 900 × H 850 mm
- Self-weight: 40 kg
