

Retractable belt stanchion h483_12

Retractable belt barrier available in various finishes. Belt length: 2300 mm. Stanchion height: 1000 mm.

The retractable belt barrier is the ideal product for all those places where there is usually a large flow of people, such as airports, stations, shopping centers and museums. Thanks to the belt delimitation post, it is indeed possible to control the number of people at the entrance of these structures in order to comply with **safety regulations** and **avoid overcrowding**. The belt reaches a length of 2.3 meters and is available in various finishes. The post, also available in different colors, has a height of about 1 m, while the base plate is 20 mm high and has a diameter of about 350 mm.

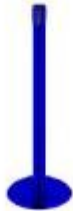

Technical features:

- Post material: painted metal
- Belt length: 2.3 meters
