

## Rigid transfer board h239\_14

Rigid transfer board. Radiolucent. Dimensions: 180x50 cm

**The rigid transfer board** allows one or more operators to transfer a patient from one surface to another with a height difference of up to 15 cm and a distance of up to 20 cm. The board is equipped with **two fireproof ABS handles** for transport that can be removed by acting on the specific fixing screws. **The board is radiolucent** and has a maximum capacity of **300 kg**. Transfer Systems are intended to facilitate manual patient handling operations through pushing, pulling, sliding, and gliding maneuvers. They have been designed for use in hospitals, nursing homes, and healthcare/care facilities and for home care.

### Technical features:

- Rigid
- 2 Handles: plastic material
- Polyester lining
- Radiolucent
- Sliding sheet: nylon
- Dimensions: 180x50 cm
- Capacity: 300 kg
