

Road barrier in galvanized steel L200 cm h287_137

Galvanized steel urban furniture barrier with provision for reflective strip. Dimensions: L200 x H110 cm

Road crowd control barrier for street furniture. Equipped at the top **with provision for a reflective strip** (not included in the supply) and at the ends with a coupling system **with 2 hooks and 2 clips**. The structure is made of **round steel tube** diam 35x 1.5 mm with vertical bars in **solid round iron** diam 10 mm, welded leaving a space of 12 cm between them. All steel parts are **hot-dip galvanized** by immersion in a Hyperpure quality molten zinc bath.

Technical features:

- Dimensions: L200 x H110 cm
- Material: galvanized steel and iron
- With 2 hooks and 2 clips
- With provision for reflective strip
- Hot-dip galvanizing according to UNI EN ISO 1461 and UNI EN 1179 regulations

**Image for illustrative purposes only, the reflective strip is not included*

**Upon request, it is possible to request the reflective strip in both single-sided and double-sided versions.*
