

Road cone and light set h503_40

Road signaling set TL compliant: 750 mm one-piece cone (RA1/A film), adapter, unidirectional yellow flashing light and battery. Dimensions: W 400 × D 400 × H 750 mm.

The **road cone and light set h503_40** is an integrated logistical solution designed for rapid signaling and securing of dangerous zones and areas affected by vehicle traffic. Developed to support the operations of maintenance teams, municipal service operators, and event organizers, this kit concretely solves the need to isolate temporary obstacles or construction sites by ensuring an immediate visual alert. The high-visibility coloring and the included lighting equipment allow for effective channeling and direction of traffic flows. Thanks to its flexible and practical configuration, the device can be promptly installed on site and, if necessary, repositioned with extreme ease to follow the evolution of work areas or events.

Technical characteristics

- **Set composition:** 1 one-piece road cone, 1 adapter, 1 flashing light, 1 block battery
- **Overall dimensions (W x D x H):** 400 × 400 × 750 mm (approximate values)
- **Total weight:** 6.6 kg (approximate value)
- **Cone specifications:** One-piece construction with a height of 750 mm
- **Visual coating:** RA1/A type reflective film
- **Flashing light specifications:** Unidirectional yellow light emission
- **Integrated power supply:** 6 V / 7 Ah 4R25 block battery included in the kit
- **Compliance and certifications:** Road set compliant with TL directives
