

Road gully h638_39

Spheroidal graphite cast iron road gully with anti-theft locking system. External dimensions: 400 x 400 mm. Height: 45 mm.

The flat spheroidal cast iron gully is an indispensable urban furniture component to ensure citizen safety and to correctly drain rainwater from the road to the sewer networks. The product features a **square-shaped frame** both at the base and at the top corresponding to the road surface level, complete with an **external perimeter flange**, **internal flanges** at the four corners for housing an optional siphon, and **holes for the grate articulation**.

The square-shaped grate is also equipped with parallel "honeycomb" slots, holes for articulation to the frame, a pair of nuts and bolts for articulating the grate to the frame, and anti-slip ridges.

Technical features:

- Material: spheroidal graphite cast iron
- External dimensions: 400 X 400 mm
- Clear opening: 300 X 300 mm
- Height: 45 mm
- Drainage area: 3.01 dm²
- Weight: 14 kg
- Anti-theft locking
- Hinge
- Siphonable
- Concavity: 8 mm

INFORMATION

- Length in millimetres 400.000000
- Depth in millimetres 400.000000
- Height in millimetres 45.000000
