

Road manhole cover 90x90 cm h638_57

Square ductile iron manhole cover, airtight. External dimensions: 900x900 mm.

Ductile iron manhole cover manufactured in accordance with the latest edition of the **UNI EN 124** standard – load classes C250, by an **ISO 9001:2015 certified company**, consisting of a **Square-shaped frame** both at the support base and at the top corresponding to the road surface level, equipped with a suitable external peripheral flange, continuous on all four sides, appropriately shaped and beveled at the corners to obtain a larger support base and allow better anchoring to the foundation; **reinforcement ribs**; suitably shaped lug(s) on the inner edge for locking the cover closing system; anti-pull-out interlocking for unique coupling with the cover; **“U”-shaped** internal seat to achieve **odor-tightness** by filling with sand and/or equivalent materials in coupling with the cover; suitably sized external compartment(s) for the insertion of an opening lever.

Square-shaped cover equipped with a closing system, **unlockable** with a generic lever, consisting of a suitably shaped elastic appendage that fits with the lug on the frame; **blind-bottom slot** suitable for housing lifting keys; space for the insertion of any **lettering and/or logos** (e.g. contracting authority + etc.); beveled corners for unique positioning within the frame; identification detail of the external dimensions of the frame expressed in cm; **uniformly distributed non-slip patterns** for the complete runoff of surface water. All covers and frames must show the reference standard, the load class, the manufacturer's mark in code and the production batch date.

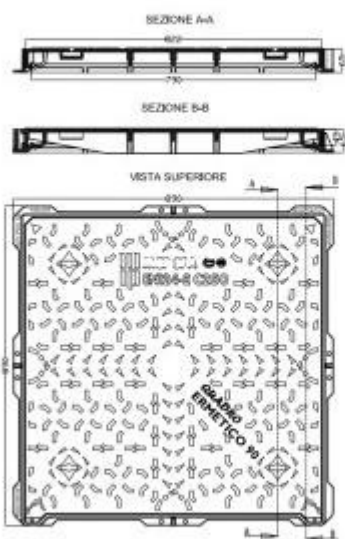

Technical characteristics:

- Material: Ductile iron
- Shape: square
- Airtight
- External dimension: 900x900 mm
- Clear opening: 800x800 mm
- Height: 65 mm
- Weight: 73 kg
- Class: C250
