

Rocking horse for nursery school h999_39

Rocking horse for nursery school h999_39 (70x55x36 cm). Removable base to transform it into a walker on wheels. Safety handles included.

The **rocking horse for nursery school h999_39** is a multifunctional play station designed for the operational setup of nurseries and kindergartens. Aimed at educators and managers of early childhood spaces, this toy solves the need to optimize resources and space by offering two distinct functions in a single piece of furniture: a static rocker and a mobile walker. Thanks to the removable oscillating base and the presence of four wheels integrated at the base of the legs, the structure accompanies children from the development of balance while sitting to their first exploratory steps in total safety. The shape is perfectly balanced and equipped with sturdy handles positioned at head height to ensure a firm and constant support throughout use.
