

Roll-up rescue stretcher h655_05

Roll-up stretcher for rescue in difficult-to-access areas. Dimensions: L200 x W60 x H30 cm.

Roll-up stretcher, ideal for carrying out rescue operations in hard-to-reach places such as mountains, ravines, and narrow spaces. Its particular shape ensures maximum **stability** and excellent **patient protection** thanks to the presence of stabilizing elements at the level of the shoulders, chest, pelvis, and spine. The possibility of rolling it up and its low weight make it particularly **easy to transport anywhere**. The **assembly is simple and fast**, so that it can be carried out at the site of the accident itself. Included in the supply are a comfortable waterproof backpack, 8 padded handles, 4 safety belts, and 2 adjustable foot straps.

Technical features:

- Dimensions: L200 x W60 x H30 cm
