

## Round ball pit for children h999\_58

Round ball pit for children (Ø160x40 cm) with 7 sections. Foldable, made of high-density foam and antibacterial PVC. Safe for nurseries.

The **round ball pit for children h999\_58** is a safe and versatile psycho-motor solution, designed specifically for use within nurseries, kindergartens, and recreational centers. Composed of 7 structural sections, this pit solves the need for educators and early childhood operators to quickly set up a protected play area, capable of withstanding intensive use and optimizing the footprint thanks to its practical foldable design. Built with a non-deformable high-density foam core and covered in PVC-coated polyester, the pool ensures a healthy and antibacterial environment, soft to the touch and bite-proof, ensuring the total serenity of children during their psychomotor development.

## Technical features
