

Round bicycle rack for 1 or 2 bikes h972_83

Round stainless steel bike rack for public spaces, 1 - 2 bikes with ground fixing. Dimensions: W 95 x H 85 cm.

The **round bicycle rack H972_83** is a compact, functional and resistant solution for **urban furniture**, designed to park **1 or 2 bicycles** in a simple and safe way. Ideal for public spaces such as schools, companies, parking lots, cycle paths or building entrances, this bike rack is built to last even in adverse weather conditions.

The structure is made entirely of **AISI 304 stainless steel**, a material that guarantees **resistance to corrosion, impact and atmospheric agents**, making it particularly suitable for outdoor installations. The **round arch design** allows for easy anchoring of the bike with a lock or chain, offering greater safety and practicality.

The bike rack is fixed directly to the ground via **8 anchoring points** with **14 mm** holes, present on a **150 x 110 mm plate**. The **tube has a diameter of 50 mm**, ensuring a solid and clearly visible structure. The low weight of **6.5 kg** facilitates handling during installation.

Compact yet robust, the H972_83 model is ideal for creating **bicycle parking spots in limited spaces**, optimizing urban organization with a **modern and essential** solution.

Trust the quality of stainless steel for safe bike parking: order the **H972_83 bike rack** now or request a quote for multiple supplies.
