

Round cast iron tree grate h950_15

Round cast iron tree grate h950_15 with powder coating, designed to protect and enhance urban green areas. Dimensions: W 125 x D 125 x h 3 cm. Weight: 60 kg.

The **h950_15 round tree grate** is an ideal solution for protecting plants in public areas such as squares, parks, and streets, while ensuring an elegant and polished appearance. Made entirely of **resistant cast iron** and treated with a **powder coating**, this grate offers optimal protection against atmospheric agents and wear over time.

The **generous dimensions (W 125 x D 125 x h 3 cm)** and the **weight of 60 kg** help keep the grate firmly in place, offering robust protection for plant roots. The **round design** allows for perfect integration into urban areas, harmonizing with the surrounding environment and improving the aesthetics of green spaces.

The **powder coating** not only ensures a uniform and resistant finish but also protects the grate from rust and damage caused by constant exposure to atmospheric agents. This treatment ensures that the grate maintains its original appearance for a long time, requiring minimal maintenance.

Choose the **h950_15 round tree grate** to protect and decorate your urban green areas. Invest in a quality product that combines robustness and elegant design. **Contact us today for further information!**

Technical characteristics:

- **Dimensions:** W 125 x D 125 x h 3 cm
- **Weight:** 60 kg
- **Material:** cast iron

User benefits:

- **Durable protection:** Safeguards plant roots and the surrounding soil.
- **High resistance:** Cast iron structure that resists atmospheric agents and wear.
- **Aesthetic design:** Perfect for beautifying streets, squares, and public green spaces.
- **Ease of maintenance:** Powder coating reduces the need for frequent maintenance.
- **Guaranteed stability:** Weight and construction ensure a stable and secure position.

FAQ:

1. **Is this grate suitable for all weather conditions?**
Yes, the powder coating protects the cast iron from rain, sun, and other weather elements.
2. **What types of public areas are most suitable for this grate?**
It is perfect for parks, squares, tree-lined avenues, and other green spaces.

3. **How do you clean the surface of the grate?**

Simply use a damp cloth or a brush with water and non-aggressive detergents.

4. **Is the grate wear-resistant?**

Yes, cast iron is a very resistant material that ensures long durability even in high-traffic spaces.

5. **How much does the grate weigh and does this affect its stability?**

The grate weighs 60 kg, ensuring optimal stability and resistance to unintentional movement.

Quick purchase guide:

The **h950_15 round tree grate** is an essential element for those wishing to protect and enhance urban green areas. Before purchasing, consider the location where it will be installed and the need to integrate it with the surrounding environment. The **robustness of the cast iron** and the **powder coating** guarantee a product that resists weather and time, minimizing the need for maintenance. Ideal for protecting plant roots in high-traffic areas, this grate offers a perfect combination of functionality and design.
