

Round folding mat for nursery h999_37

Round folding mat for nursery h999_37 (Ø 150 cm x 3 cm). In high-density foam (25 Kg) waterproof and M2 fireproof. Modular with velcro.

The **round folding mat for nursery h999_37** is a protective flooring (tatami) designed to support children's psychomotor development in total safety. Intended for **schools, gyms, sports centers and nurseries**, this support solves the need to set up modular play areas where children can walk, crawl and perform physical activities. The high density of the internal foam (25 Kg) prevents imbalances during movements, ensuring a firm and controlled support. Completely waterproof, antibacterial and provided with M2 fireproof certification, the mat combines mechanical reliability with strict hygienic-sanitary standards. The design that folds in half and the preparation for joining via velcro optimize the management of multi-purpose spaces, also offering wide possibilities for color customization.
