

Round playground sandbox h649_04

Round pine wood sandbox, Ø 3.00 m, Ø 12 cm palisades, pressure impregnation, beveled edge.

The **round sandbox** is a play space designed for the creative and safe play of children. Made of **pine wood** subjected to **pressure impregnation**, it combines structural solidity with a design suitable for any outdoor environment. The **round palisades** of the perimeter and the **beveled upper edge** reduce the risk of impact, ensuring a welcoming play surface. Ideal for playgrounds, private gardens, playrooms, and public spaces dedicated to childhood.
