

Round tree grate diam. 980 mm h330_47

Tree protection grate in galvanized and painted steel, laser-cut, composed of 4 sectors with reinforced edge. Outer diameter: 990 mm. Corten finish.

The **h330_47 grate** is designed to ensure **effective protection of the base of trees** in urban contexts, while maintaining a high aesthetic and functional performance.

Made of **galvanized and painted steel**, the structure is laser-cut to ensure **precision and clean details**, and is divided into **4 sectors** that are easily assembled. The **perimeter reinforcement plate** ensures robustness and stability to the entire grate.

The grate is **fixed to the ground using hot-dip galvanized steel screws**, for a secure and long-lasting locking. Also provided are **brackets for fixing on concrete or with anchors**, depending on the project needs.

The **corten-effect finish** gives the structure a contemporary and warm appearance, suitable for **urban furniture** projects that require elegance, resistance, and respect for the natural landscape.

A robust and refined solution to harmoniously integrate trees into the city context.

Enhance your public spaces with the **h330_47 grate**, designed to protect trees with style and functionality.

Technical features:

- **Model:** round
- **Material:** galvanized and painted steel
- **Number of sectors:** 4
- **Perimeter reinforcement plate:** steel
- **Finish:** corten color
- **Outer diameter:** 990 mm
- **Fixing:** hot-dip galvanized steel screws and brackets for concrete or anchors

User benefits:

- **Tree protection:** preserves the root flare area from impacts and trampling.
- **Modular design:** 4-sector structure for simple installation.
- **Resistant material:** galvanized and painted steel for long-lasting outdoor use.
- **Elegant finish:** corten effect for a modern and natural aesthetic.
- **Secure fixing:** complete system with screws and brackets.

FAQ:

1. What is the diameter of the grate?

The outer diameter is 990 mm, suitable for most urban contexts.

2. **How many pieces does the grate arrive in?**

The grate is composed of 4 sectors to be assembled on-site.

3. **Is it suitable for use in pedestrian areas?**

Yes, it is designed to ensure continuity to the walking surface around trees.

4. **Is the corten finish subject to corrosion?**

No, the corten-effect painting is protective and durable, designed to withstand atmospheric agents.

5. **Do I need special equipment for assembly?**

No, assembly is simple and requires only standard site tools.

Mini buying guide:

The **h330_47 grate** is a reliable and visually pleasing solution for **protecting the base of trees in public areas**. Built in **galvanized and painted steel**, with a solid structure divided into 4 sectors, it fits perfectly on sidewalks, squares, and pedestrian areas.

Thanks to the **corten finish** and the **mechanical resistance of the material**, it offers an excellent compromise between **urban aesthetics and functionality**, while guaranteeing effective protection of urban greenery.

Round steel tree grate, tree protection urban furniture, galvanized painted circular grate, corten grate for sidewalks, 4-sector urban grate.
