

Round tree guard Ø 990 mm with decorative motif h330_54

Round tree guard in galvanized and painted steel with laser-shaped decorative motif and corten finish. External diameter: 990 mm.

The **tree guard h330_54** is a protection and decoration element designed for trees in urban areas. Its **round shape**, combined with a **laser-cut decorative motif**, makes it ideal for well-kept architectural contexts and outdoor environments that desire a touch of elegance.

Made of **galvanized and painted steel**, it is divided into **4 sectors** to facilitate transport and installation. The **perimeter reinforcement plate** gives greater stability and robustness to the entire structure.

The **corten finish**, resistant and visually harmonious, integrates perfectly with paved and natural areas. The supply includes **hot-dip galvanized screws** and **fixing brackets** for anchoring on concrete or with wall plugs.

An excellent choice for those who want a decorative, robust and durable tree guard.

Give shape and protection to urban spaces with the **tree guard h330_54**, where aesthetics and functionality meet. **Buy now or contact us for more information!**

User benefits:

- **Tree protection:** prevents damage to the base of the tree.
- **Refined aesthetics:** laser-cut decoration for a pleasant visual impact.
- **Solid structure:** thickness and reinforcement for a long life.
- **Simplified management:** structure divided into 4 sectors.
- **Quality materials:** weather-resistant steel.

FAQ:

1. **Is the structure weather-resistant?**
Yes, thanks to the corten finish and galvanization, the tree guard is designed to resist rain, frost and UV rays.
2. **Is the design suitable for modern contexts?**
Absolutely yes. The laser-cut decorative motif and clean shape make it perfect for contemporary spaces.

3. **Is it possible to combine it with other urban furniture elements?**

Certainly, its neutral aesthetics and corten color make it easily integrated with benches, planters or bins.

4. **What is the finish of the product?**

The tree guard has a corten finish, resistant and visually pleasing.

5. **Is it possible to disassemble it in case of maintenance?**

Yes, since it is composed of 4 sectors joined by screws, it can be easily removed and reinstalled.

Mini purchase guide:

If you are looking for a solid and refined solution to protect the base of trees, the **tree guard h330_54** is the right choice. The **decorative motif** makes it more than just a technical element, transforming it into a real **urban design detail**.

With high-quality materials, **corten finish** and modular structure, this tree guard combines **durability, functionality and beauty**, improving the appearance and safety of city green spaces.
