

Safe for medicine storage h718_12

Medical safe with 7 pull-out drawers, EN 1300 certified lock, double-walled structure. W.60xD.50xh.120 cm, 360 kg. For hospitals, clinics, pharmacies.

Specialized safe for the **secure storage of drugs, narcotics, and controlled substances** in professional healthcare environments. Designed specifically for hospitals, clinics, and pharmacies, it meets the protection needs of expensive and vital medicines against theft and burglary.

The structure combines a **double wall** with an **EN 1300 certified key lock**, ensuring regulatory compliance and high resistance. The interior is organized into **7 pull-out aluminum drawers**, each equipped with adjustable internal dividers, allowing for a systematic organization of drugs and rapid identification of medicines during daily operations.
