

## Safety flooring for riding schools h620\_02

Shock-absorbing tiles for stables and riding schools. Material: recycled rubber granules. Dimensions: 100 x 100 cm. Thickness: 20 mm.

**Specific shock-absorbing flooring for setting up spaces for animals** such as barns, riding schools and stables. Made of **recycled rubber granules** and capable of providing a **soft and non-slip support**. Characterized by **high drainage and permeability** that allows it to be insulated from hot, cold or damp surfaces. Capable of **protecting underlying surfaces** and resolving any irregularities, providing **stability and avoiding possible height differences**. Extremely **easy to install and clean**.

### *Technical features:*

- Dimensions: 100 x 100 cm
- Thickness: 20 mm
- Material: recycled rubber granules from end-of-life tires
- Fixing: direct laying and/or gluing
- Minimum purchase quantity 2 pieces (2 sqm)
- Available in different colors
