

Safety tile kit for play and imagination h620_15

Kit of 12 50x50 tiles: 7 with numbers (from 1 to 7) and 5 with figures.

Kit of 12 tiles in rubber granules hot-aggregated with polyurethane binders. **7 tiles** represent numbers (from 1 to 7) and **5 represent** images. Ideal for play and for stimulating children's imagination, the flooring is widely used where a sufficient degree of safety is considered useful and necessary, used in playgrounds, kindergartens, gyms, playrooms, schools. High degree of shock, vibration and noise absorption, reduces trauma and micro-fractures, high protection of underlying surfaces, non-slip with high drainage power and permeability. **Easy to install and clean.**

Technical characteristics:

- Material: Rubber granules derived from end-of-life tires hot-aggregated with polyurethane binders
- 12 tiles: 7 numbers (from 1 to 7) and 5 with images
- Thickness: 30 (HIC 1.00m)
- Dimensions: 50x50 cm
