

Sandbox for playgrounds with cover h351_21

Sandbox for playgrounds in PE-HD polyethylene with PVC protective cover. Age 0-12 years, 161x157x53 cm, EN1176 compliant.

The playground sandbox is designed for public parks and play areas where children can engage in recreational activities safely. Made of **mass-colored PE-HD polyethylene**, the structure guarantees robustness and durability over time, supported by **painted aluminum support profiles** with weather-resistant treatment. The **PVC cover** allows the sand to be protected from the elements and access by animals, keeping the area always clean and hygienic.

The product is built according to the **EN1176-1-2017 standard** and intended for children from **0 to 12 years**, with assembly hardware in **stainless steel and galvanized steel** to ensure safety and long-term convenience of use.

Technical characteristics

- Structure material: mass-colored PE-HD polyethylene
- Support tubes: aluminum profiles painted with outdoor resistance treatment
- Cover: PVC
- Assembly hardware: stainless steel and galvanized steel
- Age range: 0–12 years
- Recommended sand level: minimum 200 mm, maximum 300 mm
- Dimensions: 161 x 157 x H 53 cm
- Weight: approx. 55 kg
- Regulatory compliance: EN1176-1-2017
