

Sanitary pad dispenser for public restrooms h20_220

H20_220 sanitary pad dispenser in white galvanized steel. Dimensions 17x42x14 cm. Robust and compact for high-traffic public restrooms.

The **H20_220 sanitary pad dispenser** represents a professional solution for equipping restrooms in collective and high-traffic contexts. Designed to meet the needs for hygiene, discretion, and durability, the device allows for the orderly dispensing of sanitary pads and tampons, protecting the consumables from external contamination. The single-compartment structure is optimized for small spaces, making it ideal for installation in offices, healthcare facilities, schools, and HoReCa environments.
