

Sanitary pad dispenser with stickers h20_222

Professional dispenser for sanitary pads and tampons in galvanized steel (42x29x14 cm). Double compartment, security lock and white RAL 9003 finish.

The **H20_222 sanitary pad dispenser** is a wall-mounted device designed to optimize the supply of hygiene products in public and professional restrooms. Made of **galvanized steel** with a **polyester powder** finish, the product ensures high resistance to oxidation and mechanical wear, making it suitable for high-traffic contexts. The internal structure is organized to manage different types of absorbent products simultaneously, ensuring order and maximum hygiene.
