

Sanitary trolley with trays h930_61

Hospital trolley with steel trays and wheels with brake. Dimensions: W 121 x D 54 x H 101 cm.

The **sanitary trolley with trays H930_61** has been designed to meet the needs of transporting and organizing medical material in hospital wards. Compact, solid, and functional, it represents an ideal solution for clinical environments where it is essential to have **tools and materials easily accessible and transportable** in total safety.

The trolley is equipped with **scratch-resistant epoxy powder-coated steel trays**, a highly resistant material that guarantees long durability even under intensive use conditions. The **trays have a size of 89.3 x 52 cm** and can support up to **20 kg each**, making them suitable for moving medical instruments, dressings, devices, and containers.

The **structure rests on a steel base with 4 wheels of 10 cm diameter**, all equipped with **brakes**, ensuring **stability during operations and ease of movement** even in tight or busy environments such as hospital aisles.

A system of **side rails** allows for the mounting of accessory equipment on one of the **four available guides**, allowing the trolley to be adapted to the specific operational needs of the ward.

Trust in the practicality and resistance of the **H930_61 trolley** to improve the organization in your ward. Order now or request a dedicated quotation!

Technical features:

- **Base structure:** steel
- **Trays:** scratch-resistant epoxy powder-coated steel
- **Tray dimensions:** 89.3 x 52 cm
- **Load capacity per tray:** 20 kg
- **Accessory mounting system:** 4 side guides
- **Wheels:** 4 with brake, diameter 10 cm
- **Dimensions:** W 121 x D 54 x H 101 cm
- **Overall weight:** 38 kg

User benefits:

- **Transport:** easy thanks to wheels with brake and lightweight structure.
- **Trays:** wide and robust to hold materials of different sizes.
- **Surface:** scratch-resistant and easy to sanitize.
- **Modularity:** thanks to the side rails system.
- **Stability:** during use in the ward.

FAQ:

1. **What are the dimensions of the trolley?**
The dimensions of the trolley are W 121 x D 54 x H 101 cm.
2. **Can I add side accessories?**
Yes, the 4-guide system allows the mounting of compatible accessories.

3. Are the trays fixed or removable?

The trays are fixed, designed to withstand loads up to 20 kg.

4. How much does the trolley weigh?

The overall weight is 38 kg, which makes it maneuverable yet stable.

5. Is it suitable for facilities other than hospitals?

Yes, it can also be used in clinics, nursing homes, and outpatient offices, wherever a versatile and resistant trolley is needed.

Mini buying guide:

When selecting a sanitary tray trolley, consider the **width of the shelves**, the **load capacity per tray**, the **quality of materials** (coated steel for hygiene and durability), and the **mobility guaranteed by robust braking wheels**.

The possibility to equip the trolley with supports, containers, or tools to be attached via **side rails** is an added value in environments where flexibility is essential.

Finally, it is important that the entire structure is **easy to sanitize** to ensure maximum health safety.

Hospital sanitary trolley, medical trolley with trays, steel hospital trolley, sanitary trolley with braking wheels, professional medical equipment, hospital ward trolley.
