

School chair size 4 h908_22

School chair in beech wood and Ø25 mm steel, size 4. Recessed structure and stackable design for maximum resistance and optimization.

This **school chair** is designed to ensure high resistance and durability in intensive-use educational environments. The structure combines a load-bearing frame in **25 mm steel tube** with seat and backrest in **beech wood**, materials selected for their ability to withstand prolonged mechanical stress. The construction peculiarity lies in the recessed system: the wooden components are housed directly inside the metal profile, minimizing edge exposure and increasing the overall stability of the seat.

Technical features

- **Seat and backrest material:** natural beech wood
- **Bearing structure:** steel tube with diameter Ø25 mm
- **Construction type:** wooden elements recessed into the metal structure
- **Functionality:** stackable chair for space optimization
- **Size:** 4 (school standard)
- **Dimensions:** W. 36 x D. 36 x h. 38 cm
