

School chair size 4 h908_40

School chair size 4 with Ø25 mm steel structure and beech plywood shell. Stackable design for space optimization.

This **school chair** is designed for the furnishing of public and private educational institutes, offering a robust and functional solution for the classroom environment. The combination of a solid tubular metal structure and natural wood components ensures stability and durability over time, responding to the typical stresses of intensive use. The design is focused on operational functionality, allowing the seat to be **stackable** to facilitate tidying and cleaning operations of teaching spaces.

Technical features

- Structure: tubular steel with Ø25 mm diameter
- Seat and backrest material: natural beech plywood
- Size: Size 4
- Overall dimensions: W. 36 x D. 36 x h. 38 cm
- Functional feature: stackable seat
