

School chairs with h872_36 360° rotating tablet

Professional school chair with 360° rotating tablet, Ø 32 mm steel structure and PU wheels. Ergonomic and inclusive for every user.

The **school chair H872_36** represents an advanced solution for the management of modern educational spaces and collaborative classrooms. Designed to maximize operational efficiency, this seat integrates a workstation and mobility into a single module, facilitating the rapid transition between different classroom configurations. The chair meets the need for flexible furniture that can accommodate both **left-handed or right-handed** users alike thanks to the complete rotation system of the work surface.

Structural solidity is guaranteed by a generously sized **painted steel** frame, coupled with high-resistance polypropylene components for the seat and backrest. The integration of specific accessories such as the lower metal mesh and the bottle holder compartment allows for an orderly workspace, eliminating the clutter of backpacks or personal items on the floor.
