

School desk h908_09

Ergonomic school desk 80x60 cm with tilting top and adjustable height (78-102 cm). Equipped with a swinging footrest for postural well-being.

This **adjustable school desk** represents a technical furniture solution designed to support dynamic posture in an educational environment. The structure is conceived to adapt precisely to the various stages of students' growth, addressing the critical issues related to prolonged sedentary behavior through the integration of mechanical adjustment systems and devices for active movement.

Technical features

- **Height adjustment:** extended range from 78 to 102 cm, compatible with UNI EN 1729 sizes (3-4-5-6-7).
- **Worktop:** 80 x 60 cm surface with variable tilt mechanism for different educational activities.
- **Swinging device:** integrated system for fatigue-relieving leg movement positioned in the lower part.
- **Versatility:** designed to follow the anthropometric evolution of the student throughout the entire school cycle.
