

School desk with beech undershelf h908_84

Single-seater school desk in 28 mm diameter steel with beech undershelf. Dimensions 70x50x76 cm, double-column structure for intensive stability.

The **single-seater desk h908_84** is a technical furniture piece designed for the setup of school classrooms that require high standards of stability and mechanical resistance. Characterized by a **double-column structure**, the module eliminates lateral oscillations, guaranteeing a firm work surface even during intensive use. The integration of a **beech undershelf** allows for efficient workstation management, freeing the worktop from bulky educational materials and promoting operational order.

Technical features

- **Total dimensions:** W 70 x D 50 x H 76 cm
- **Supporting structure:** tubular steel with 28 mm diameter
- **Configuration:** self-supporting double-column system
- **Top material:** ivory finish laminate
- **Undershelf material:** high-resistance beech wood
- **Structure finish:** aluminum-colored powder coating
- **Use:** suitable for lower and upper secondary schools
