

School desk with footrest h908_62

Single-seat steel school desk with integrated footrest and under-top grid. Dimensions 70x50x71 cm, ideal for primary and secondary schools.

The **h908_62 single-seat school desk** is technical furniture designed to optimize ergonomics and functionality in primary and secondary school classrooms. The load-bearing structure, made of **curved steel tube with a diameter of 28 mm**, guarantees high mechanical resistance and stability, making it suitable to withstand the typical stresses of intensive daily use. The design integrates specific solutions for the student's postural well-being and for the orderly management of teaching materials.

Technical features

- **Type:** single-seat desk for professional school use
- **Dimensions:** W 70 x D 50 x H 71 cm
